Tree Island Steel nails meet or exceed ASTM F1667, ASTM A153 Class D and ASTM C514 standards.

Available in:

50 lb cartons, 20 lb convenience packs, and 30 lb plastic pails (select items).

Sizes: From 3/4" to 14" nail lengths.

Available Coatings:

Hot dipped galvanized (ZincGard®), Bright, Electro-galvanized, Phosphate, Blued.

ZincGard® Coating - Tree Island Steel hot dipped galvanized nails have an extra heavy coat of pure zinc which has been metallurgically bonded to high quality steel. Our nails are galvanized after forming the head and point to provide complete protection. The zinc coating is extremely durable and resists rust even if a portion of the finish is damaged, unlike coatings such as paint or electroplating.
